Readme!!

The distribution of this software is intended for ham radio operators to program the covered radios for amateur radio use only.

By using this software and agreeing to the software license you are agreeing to these conditions.

- Program the radio for only amateur radio use.
- Do not use the programmer or radio to commit any crime or violence on another person or entity.
- Do not use the programmer or radio to monitor any public safety frequency where unlawful or without their consent.
- Use only the help files enclosed within the software and other amateur radio operators to answer questions and support of the software and radio programming. (Don't call or email for support from the manufacturer.)

73 and have fun!
